

Simple Image Modification:

Please edit the image 1.jpg for use on michaelvalmont.com . (It has to look good on the website design..)

I need the logos Sky News, BBC Radio, Mens Health, The Telegraph made in black and white and overlayed in small in the corner of the image (bottom left or whatever you think looks good). This is just to show credibility. The logos just need to be 'blended' in terms of the black and white style/feel of the image and website.
